

The Institute of Textile Science

Incorporated, Canada 1956

109th Scientific Session
December 10, 2012 – Gatineau, Quebec

Call for Papers and Posters

Peer Review Section

Members and non-members are encouraged to submit research papers or posters that represent *basic or applied research* involving textiles, textile-based materials, non-wovens, composites, or polymers in the following areas:

- Surface treatment or modification
- Development of new fibres, including natural fibres

Please submit a 500-word abstract to Lena Horne by email at Lena.Horne@ad.umanitoba on or before September 21, 2012. The abstracts will undergo a peer review process. Members will be notified of the outcome of their submissions by October 5, 2012.

Professional Practice Section

Members and non-members are encouraged to submit papers or posters pertaining to their *research and development* efforts in textiles, textile-based materials, non-wovens, composites, or polymers in the following areas:

- Surface treatment or modification
- Development of new fibres, including natural fibres

Please submit a 500-word abstract to Lena Horne by email at Lena.Horne@ad.umanitoba on or before September 21, 2012. These abstracts will not undergo a peer review process. However, they will be scrutinized for compatibility with the theme of the Scientific Session. Members will be notified of the outcome of their submissions by October 5, 2012.
